

EFTSL - Equivalent Full Time Student Load

Equivalent full-time student load (EFTSL) is a measure of a student's study load. An EFTSL of 1.0 is the standard annual study load of a student undertaking a course on a full-time basis over the duration of a year. The annual EFTSL sum of a student's module / unit enrolment provides an indication of the study load undertaken by the student in the year.

The EFTSL value of the modules / units offered in the College's courses are tabled below.

For details on course and module/unit tuition fees go to: acap.edu.au/costs.html.

For details on the key term dates and census dates go to currentstudents.acap.edu.au/key-dates or [contact](#) the College.

~ VET Modules undertaken entirely via RPL assessment incur an EFTSL value proportional to the EFTSL value for the corresponding module. For example, if the module being undertaken via RPL assessment involves a week's worth of assessment for a student enrolled in a 12 week teaching period, then the EFTSL value for that unit will be 1/12 of the EFTSL value assigned to the standard non RPL unit. For further details contact the VET Coordinator for your campus.

* Module–Unit availability is subject to demand.
