Applied Psychology

INTERNATIONAL EXCHANGE

Reflective of ACAP's commitment to excellence in the realisation of our mission ACAP values expanding the educational horizons of students and staff through international exchange.

International exchange can be a rewarding and memorable life experience for all involved.

For students it can provide the opportunity to apply their knowledge and skills in a different cultural context, gain an international perspective on their courses and career, and build a global network of friends and contacts.

For staff, it can provide the opportunity to advance their professional knowledge and skills in a different cultural context, facilitate the exchange of ideas or specialised skills, and build a global network of colleagues, friends and associates.

For participating institutions, it can provide the opportunity to facilitate the mutual exchange of ideas or specialised skills, encourage the richness of international perspectives and cultural and social diversity, contribute to cross-border knowledge innovation for the benefit of humanity, and build global collaborative networks across the professions, industries, communities and governments.

International Exchange Partner Institutions

COUNTRY	INSTITUTION	Information on International Student Exchange (Inbound & Outbound)
